Supernatural, Gabriel/Crowley, "Darling... are you aware that I feel compelled to eviscerate you for that?"

A Silly fun ficlet.

If Gabriel doesn't stop waggling his eyebrows, Crowley is going to rip them off. Possibly use them as a chewtoy for Edith's pups later.

But Gabriel catches his laser glare and beams, and okay. Crowley is going to kill him.

"Darling," He says through gritted teeth, "Are you aware that I am going to eviscerate you for this?"

(Edith is whining, off to the side, confused at why she's now blue and pink and completely furless.)

"Aw, I didn't know you were into bondage!" Gabriel says, hopping up. "You really want me tied up?"

"Yes. No. Gabriel. Put her fur *back*."

Gabriel hums. "...only if you let me tie you up later. Deal?"

"Deal." Crowley says, because he will do anything for the safety of his hounds, and Gabriel has a fantastically skilled mouth.

Gabriel beams, and his eyebrows are waggling again, but Edith is back to normal.
